## CAREER OBJECTIVE

To secure an entry-level Java Developer position that allows me to utilize my Core Java knowledge and build a strong foundation in backend software development.

## TECHNICAL SKILLS

- Programming Languages: Core Java
- Web Technologies: HTML, CSS, JavaScript
- Tools & IDEs: IntelliJ IDEA, VS Code

## PROJECT

### Smart Banking Management System (Core Java)

- Developed a **Smart Banking Management System** using **Core Java**, implementing real-world banking operations such as account creation, deposits, withdrawals, and fund transfers.
- Applied **OOP principles, Collections, and custom exception handling** to enforce business rules like minimum balance and daily transaction limits.
- Designed a modular architecture with clean code structure for better maintainability and scalability.
- Implemented **file handling** to store and retrieve account and transaction details for data persistence.

### Number Guessing Game

- Built a console-based game where users guess a randomly generated number between 1–100.
- Used **loops, conditional statements**, and the **Random** class for game logic.
- Displayed feedback and total attempts after each guess.

## TRAINING & CERTIFICATION

### QSpiders Institute, Gurugram

Java Full Stack Development Training

- Hands-on experience with Core Java, HTML, CSS, JavaScript.
- Understood full-stack flow from frontend to backend integration.
- Developed small web-based projects during training.

## Additional Skills

- Digital Marketing & Account Coordination – **1 Year Experience** (Shishpa Infoway Pvt. Ltd.)
- Meta Ads Management

## EDUCATION

**Bachelor of Computer Applications (BCA)** — CGPA: 7.4

Chaudhary Devi Lal University, Sirsa, Haryana

**12th (Commerce + Mathematics)** — 79%

Shah Satnam Ji Boys' School, Sirsa, Haryana
